**Write an explanation to accompany your final piece of work.**

- a) Explain your design, why you have created it this way and what the colours and the shapes mean for you.  
What does it symbolize?  
What do you hope people will think and feel when they look at your work?
- b) Explain the process of decision making that you went through to make this.  
How did you make your decisions? How did you manage to compromise?  
Do you think the final piece does reflect both of your points of view and creative ideas? Why?
- c) Overall Summary: what do you think you have learnt from this unit of work (isay:usay:wesay)?
